HRIZONS® Sponsors SuccessConnect® 2019 in Las Vegas

Minneapolis, MN—09, 2019—HRIZONS, a SAP® SuccessFactors® partner since 2006, today announced the company is a Silver level sponsor at SAP's annual SuccessConnect® conference – the premier event for human resources (HR) professionals, set to take place September 16-18 at the ARIA Resort & Casino in Las Vegas.

SuccessConnect in Las Vegas will bring together executives and leaders in HR, IT and other lines of business to explore successful digital HR strategies in the experience economy. Hot topics will include the Human Revolution and using SAP SuccessFactors solutions to help bring organizations' purpose to life, put more meaning into people's work and create engaged workforces that improve both performance and profit.

At SuccessConnect, HRIZONS will host booth S9 to showcase the following:

- 1) HRZ® CLOUD APPS, cloud process extension solutions for SAP® SuccessFactors®
- 2) HRZ® EVOLUTION, Post Go-Live Optimization and Managed Services
- 3) HRZ® EXECUTION, Implementation Services including Upgrade2Success Capabilities

HRIZONS's will also share recent HRZ EXECUTION project experiences that have helped businesses that use SAP ERP Human Capital Management successfully migrate to SAP SuccessFactors (*Upgrade2Success*).

"HRIZONS knows that achieving integrated Human Capital Management (HCM) in the Cloud with SAP SuccessFactors is a journey, not an event, said Jim Newman, CEO from HRIZONS. "Cloud technology is dynamic, agile and maturing faster than ever."

To support customer growth in the cloud, HRIZONS will also showcase three application extensions:

1. JDMS®
Job Descriptions Made Simple improves job outcomes, job description governance and compliance, and helps standardize and improve the quality of job content. JDMS is fully integrated with SAP SuccessFactors and offers a smooth end-user experience designed to address today's HR needs.
2. PAD™
Performance Accountability Dashboard helps organizations take SAP SuccessFactors Performance & Goals to the next level by focusing on strategic goal execution and dashboards and performance accountability. Learn how PAD changes the way businesses measure and track success from their most valuable resource...their people.

3. OrgInsight™

OrgInsight is an innovative app that provides a new, dynamic and visual way to analyze the workforce like never before. View hundreds of thousands of employees on screen, manage spans and layers easily, explore workforce diversity, identify compensation and diversity issues, mitigate risks and take action to optimize the workforce. OrgInsight integrates with SAP SuccessFactors and can also leverage HR data from third-party systems.

The future workplace will look very different from today's, from technology advancements to the changing nature of jobs, skills and careers. But no matter how much technology helps businesses automate, one thing will never change: people and their experiences at work make the difference. HR is more important than ever to lead the Human Revolution and focus on what really matters: the people driving business outcomes. Because the companies that put people at the heart of their strategies will win.
