

PQE Migration Booster™ for SAP SuccessFactors Learning Customers!

An intelligent solution for customers needing to migrate from Plateau Question Editor (PQE) to SAP SuccessFactors Learning Assessments.

OUR SOLUTION

Using our proven 5-4-3 project methodology and our SAP Intelligent RPA solution, we migrate your exams and question library with 5 Stages, 4 Milestones and 3 Iterations. Plus, we include one week of hyper care post go-live support!

As part of our methodology, one of our Certified Learning Consultants will facilitate a Design Workshop to review the overall process, guide your team to make key decisions, and gather your requirements to configure our SAP Intelligent RPA solution for the automated migration.

HOW IT WORKS

3 easy steps:

- 1 **MIGRATE** exams and questions
- 2 **CREATE** new assessments, re-map questions and apply settings
- 3 **REPLACE** the legacy item with the new assessment

PQE MIGRATION BOOSTER ENSURES A SUCCESSFUL MIGRATION!

- Reduces the burden on HR/IT resources
- Provides a robust, validated and systematic approach
- Reduces risk and improves quality to maintain compliance
- Minimizes the impact to end-users

Customers must migrate to the new assessment feature in SAP SuccessFactors Learning with end-of-support for legacy PQE effective December 31, 2020.

TIME IS MONEY! Manually migrating can take up to 2 hours per exam.
