

HRIZONS® and 1218 Global HR Solutions Join Forces

July 28, 2021 Minneapolis, MN – Today, HRIZONS, an HR cloud company with a proven track record in making HR digital transformation to achieve Human Experience Management (HXM) a reality for its customers, and 1218 Global HR Solutions, a 1218 Global company and leading provider of HR business transition consulting services, announce that 1218 Global HR Solutions has joined forces with HRIZONS to meet client needs across a broad spectrum of cloud-based SAP® SuccessFactors® HR software offerings.

“When we were ready to expand our SAP SuccessFactors practice, we were aware of 1218 Global HR Solutions’ expertise and commitment to their clients and consultants. Their motto of “Your people matter. Our people care.” fits right in with the HRIZONS approach and culture”, said Jim Newman, President & CEO of HRIZONS. “We have 15 years of proven worldwide Human Experience Management (HXM) experience and expertise with SAP SuccessFactors and Qualtrics® EmployeeXM™. We are a trusted advisor for our clients and we deliver outcomes. The addition of the 1218 Global HR Solutions team makes us stronger and allows us to reach new levels of excellence in helping our customers on their HR technology journey-to-the-cloud.”

“1218 Global HR Solutions is based on a set of shared values that aligns perfectly with HRIZONS.” said Jeanne Mitchell, Global Practice Leader of 1218 Global HR Solutions. “Our practice was built on the premise that our clients should get the absolute most out of their product and the consultants they work with. And, the solution should be focused on achieving their strategic objectives. That is what enables our clients to get the most out of their workforce, which in turn improves their bottom line.”

This combines the strengths of 1218 Global HR Solutions with HRIZONS and their highly trained, experienced professionals who lead clients through adoption and consumption of HXM technologies that drive superior results and delivers the digital transformational power of SAP SuccessFactors technology to meet the needs of its clients’ business.
